

Curriculum vitae

David Beauchesne

June 16, 2023

David Beauchesne, Ph.D.

Postdoctoral researcher, University of Toronto
inSileco Inc. co-founder & co-president
Cell: 1 (514) 553-4974
david.beauchesne@hotmail.com

Professional experiences

2022-Present - Postdoctoral researcher, University of Toronto, Department of Health and Society, Ontario, Canada

2020-2022 - Postdoctoral researcher, Université Laval, Department of Biology, Québec, Canada

2020-Present - inSileco Inc., Co-president and co-founder

2012-2014 - Research professional, Université du Québec à Rimouski, Qc, Canada

Diplomas

2014-2020 - Ph.D. Oceanography, Université du Québec à Rimouski, Qc, Canada

2009-2012 - M.Sc. Geography, Planning & Environment, Concordia University, Qc, Canada

2006-2009 - B.Sc. Biologie, Université du Québec à Rimouski, Qc, Canada

Research Interests

Community ecology, conservation, cumulative effects, ecology, environmental stressors, human impacts, protected areas, social-ecological networks, ecosystem-based management, computational ecology, reproducibility, data science

Technical skills

R, LaTeX, Markdown, HTML5, CSS, GitHub, ArcGIS, QGIS, Office, Marxan, SAS, Sigma Plot, Inkscape,

Grants

[4] 2022-2024 - University of Toronto Scarborough Postdoctoral Fellowship (22 500\$/year for 2 years)

[3] 2019-2020 – *BIOS²* Fellow (10 000\$)

[2] 2015-2018 – Postgraduate Scholarships-Doctoral Program (PSG D) – Natural Sciences and Engineering Research Council of Canada (CRSNG; 21 000\$/year for 3 years)

[1] 2014-2017 – Doctoral research scholarship - Fonds de recherche du Québec - Nature et Technologies (FRQNT; 20 000\$/year for 3 years)

Prizes

[4] 2017 - Public prize for best poster - Next Generation Planning - Structuring and Sharing Stressors Data for the St. Lawrence - Québec Ocean's Annual Scientific Meeting 2017, May 13-15th 2017, Rivière-du-Loup, Québec, Canada

[3] 2016 – Public prize – The link between machine learning, networking, pokemon and ecology – Québec Océans's 15th Annual General Assembly, 8-9th November 2016, Rimouski, Canada

[2] 2016 – Best oral presentation – The link between machine learning, networking, pokemon and ecology – Québec Océans's 15th Annual General Assembly, 8-9th November 2016, Rimouski, Canada

[1] 2015 – Frances Wilson grant for the progress of scientific knowledge (2 500\$)

[3] Cartography in R workshop (2018) Québec Océans's 2018 student retreat. Île d'Orléans, Québec, Canada, April 13-15th. Instructors: Dreujou E, Beauchesne D, Brice M-H, Casajus N, Cazelles K, Vissault S

[2] CHONe data management workshop (2017) CHONe II 2017 annual meeting, Gatineau, Québec, Canada, May 1-2nd. Instructors : Beauchesne D, Daigle R, Grant A.

[1] Activité d'échange de connaissances avec des représentants locaux dans le cadre de l'étude concernant une aire marine protégée aux Îles de la Madeleine (2013). Îles de la Madeleine, QC, Canada. March 7-8 2013

Misc

[1] Invited panelist for closing plenary discussion of WCMB 2018

Conference organisation

[4] 4th World Conference on Marine Biodiversity. Conference organizing committee, student committee and mentoring program organizing committee Montréal, Québec, Canada. May 13-15th, 2018

[3] Québec-Ocean's Annual Scientific Meeting 2017, Rivière-du-Loup, Québec, Canada. November 7-9th, 2017

[2] Québec Océans's 15th Annual General Assembly, Rimouski, Canada, November 8-9th, 2016

[1] Québec-Océan's 14th Annual General Assembly, Québec, Québec, Canada, November 10th-11th, 2015

Teaching

[3] Scientific visualization - Winter 2019 (March 13th) *Université Laval*, for Sentinelle Nord - Visualising and presenting scientific data - Overview of graphical and plotting possibilities in R

[2] Introduction to R workshops – Fall 2016. *Université Laval*, for Québec center for biodiversity science (QCBS) - Linear regressions in R - Programming in R

[1] Teaching assistant – 2009 & 2012 *Concordia University*, Montreal, Québec - Plant ecology and landscape ecology courses - Meeting with students - Grade assignments, laboratory reports and exams - Administer final grades

Work experiences

[8] Freelance environmental scientist and Marxan expert - 2017 *Ministère du Développement Durable et de la Lutte contre les Changements Climatiques*

Identification of areas of interest for the conservation of the Continental area of Québec's Plan Nord using a systematic conservation planning approach. - Consultant on Marxan and systematic conservation planning - Develop R code for Marxan use - Spatial analyses using the Marxan decision support tool - Attend team meetings - Assist and guide ministry team - Assist in writing study report - Oral and written communication of final report to ministry representatives

[7] Biologist - August 16th to September 2nd, 2016 *Department of Fisheries and Oceans Canada*

Annual plurispecific survey of the biodiversity of the Estuary and Gulf of St. Lawrence, NGCC Teleost - Benthic invertebrates and fish identification - Follow other scientific protocols

[6] Research professional – 2012-2014 *Université du Québec à Rimouski*

Institut des sciences de la mer (ISMER) and Department of Biology, Chemistry and Geography

1. Feasibility study for a marine protected area at the Magdalen Islands, Québec, Canada
 - Assistant coordinator and research auxiliary in a multidisciplinary research group
 - Spatial analyses using the Marxan decision support tool
 - Cartography
 - Meeting organization and administrative tasks
 - Contacts and interviews with local stakeholders related to the fisheries and tourism industries
 - Organization of knowledge exchange activities with local stakeholders
 - Oral and written communication to multiple types of audiences (scientists, governmental officials and local stakeholders)
 - Write study report
2. Develop undergraduate course material on marine protected areas
 - Develop course outline
 - Literature research
 - Participate to the preparation of course material
3. Literature review on predator control in the context of forest-dwelling caribou conservation in the boreal forest
 - Literature research
 - Write study report
4. Analysis of the impacts of roads on the ecology of forest-dwelling caribou and gray wolf in the Charlevoix region
 - Spatial and statistical analyses
 - Write study report
5. Cartography of kelp forests using acoustic methods
 - Spatial interpolation of acoustic data
 - Statistical analyses

- Write study report

[5] Freelance spatial analyst and cartographer – 2013 *Parks Canada* - Digitization and vectorization of cartographic interviews with fishers from the Magdalen Islands

[4] Geographic Information System room attendant – 2010-2012 *Concordia University*, Montreal, Québec

- In charge of a computer room dedicated to spatial analyses in the geography department
- Student support and services
- Technical support for spatial and statistical analyses

[3] Biologist – Summer 2009 *Ministère des Ressources Naturelles et de la Faune*

- Integration of the SIFA system at MRNF Bas-Saint-Laurent
- Historic fisheries data management and implementation to a new data management system in the office of the Ministère des Ressources Naturelles et de la Faune
- Occasional field work in assistance to ministry technicians

[2] Project leader – Summer 2008 *Université du Québec À Rimouski*, Rimouski, Québec

Identification of fossil diversity in a Devonian archeological site in the Chic-Chocs in Gaspésie, Québec, Canada.

- Contact international researcher
- Internship in Oregon
- Literature research
- Laboratory work

[1] Research assistant – Summer 2007 *Acadia University*, Wolfville, Nova-Scotia *Kejimikujik National Park and National Historic Site of Canada* *Mersey Tobeatic Research Institute*

Studying sub-populations of blanding's turtle (*Emydoidea blandingii*) and ribbonsnakes (*Thamnophis sauritus septentrionalis*) in South-Western Nova-Scotia.

- Trapping
- Telemetry
- Nest survey
- Manipulation of species at risk
- Plant identification
- Data entry
- Work with local communities
- Work in remote locations
- Literature research
- Work within a species recovery team
